

● FLUID MANAGEMENT SYSTEM:

ANGIOGRAPHIC SYRINGES

- Pelican^gio:**
- 300 PSI (21 bars)
 - from 60 ml to 200 ml
 - adaptable for Medtron and Medrad injectors
 - fast and easy connection for every standard Luer lock

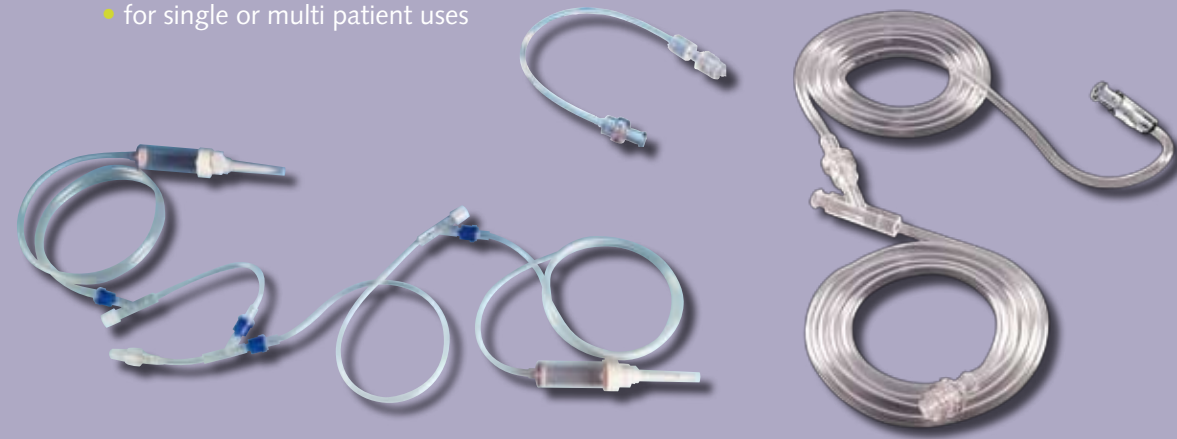

CONNECTION LINES

- Alga^flex:**
- 300 PSI (21 bars)
 - from 30 cm to 150 cm
 - straight or coiled
 - fixed and spinlock adaptors

CT AND MRI SETS

- Octo^flux:**
- filling and injection sets
 - patient lines with check valves
 - for single or multi patient uses

This medical device is CE marked by LNE-GMED.

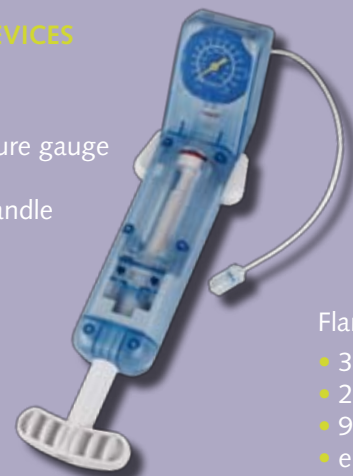

REF GB GAMME/D

PTA-PTCA DEVICES

INFLATION DEVICES

Dolphin:

- 30 atm pressure gauge
- 30 cc syringe
- ergonomic handle

Flamingo:

- 30 atm pressure gauge
- 20 cc syringe
- 90° rotary pressure gauge
- ergonomic handle

HAEMOSTATIC VALVES

Myshell lite:

- push-pull closing system
- double silicone valve
- inner diameter up to 9F

Screwing Valve:

- large screwing ring
- opened axial angle
- inner diameter up to 9F

COMPRESSION DEVICE

SealOne®:

- precise adjustment and control of compression level
- targeting the radial artery
- enhanced visibility of the puncture site
- secured decompression

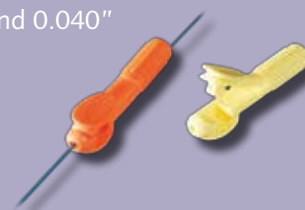

PTA-PTCA ACCESSORIES

TORQUE DEVICES

Alligatork:

- press and release handling system
- 2 diameters: 0.010" and 0.020" 0.025" and 0.040"

Screwing torque device:

- screwing system
- diameter: 0.010" and 0.035"

3-WAY STOPCOCKS

Trefoil:

- 3-way stopcocks OFF
- blue handle: 435 PSI (30 bars)
- green handle: 1200 PSI (83 bars)
- rotating adaptor

CONTROL SYRINGES

Corowl:

- 12 ml syringe
- rings and rotating Luer lock connection

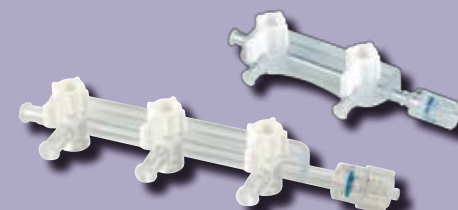

- 10 ml syringe

MANIFOLDS

- 2-way manifold OFF: 500 PSI (35 bars)
- 3-way manifold OFF: 500 PSI (35 bars)

ANGIOGRAPHIC FLUID MANAGEMENT

ANGIOGRAPHIC SYRINGES

Pelican^gio:

- up to 1200 PSI (83 bars)
- from 60 ml to 200 ml
- adaptable for Medtron, Medrad and Covidien injectors
- fast and easy connection for every standard Luer lock

CONNECTION LINES

Alga^flex:

- 1200 PSI (83 bars)
- 700 PSI (48 bars)
- from 50 cm to 200 cm
- nylon braided, PU and PVC
- rotating, fixed and spinlock adaptors

MANIFOLD SETS

Minif^lux and Nautif^lux:

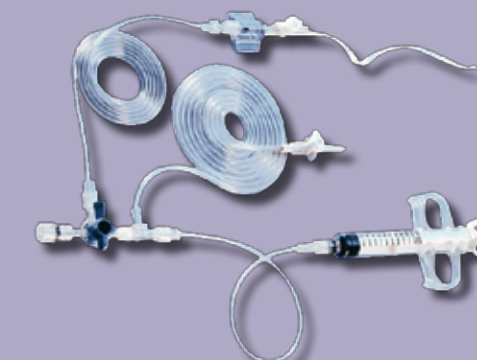

- compact automatic set
- user friendly

- 4 functions: contrast media filling/injection, blood pressure monitoring, flush and drug injection

Octof^lux:

- standard manifold sets

Transfer ^sets:

- for saving contrast media and saline solution in multi patient use
